Project Charter

Part I: Project Overview

| | | | |
|-------------------------------|---|---------------------------|--------------------------------|
| Project Name | An analysis report of Honeybee Pests & Pathogens in Ontario Apiaries. | | |
| Project Charter Author | Moganaviniith Rathinavel | | |
| Creation Date | 30 th November, 2022 | Last Revision Date | 2 nd December, 2022 |
| Project Requestor | Richard Lambroff | | |
| Proposed Project Start | Nov 30, 2022 | | |
| Proposed Project End | Jan 30, 2022 | | |

Part II: Stakeholders

| | |
|---------------------|--|
| Sponsor | Richard Lambroff |
| Client | Richard Lambroff |
| Project Team | Ragavi Mudaliyar – Communicator Rajalakshmi Nagarajan – Developer Paras Gangani – Data Analyst |

Part III: Project Details

| | |
|-------------------------------------|--|
| Project Description | We will analyze about pests and pathogens in Ontario's apiaries and compare it with previous year's report. We will be analyzing rate of individual pests per monitoring site. As a result, we will be deriving an insight comparing previous year pest ratio and the current ratio. |
| Project Objective | <p>The objective of this project is to develop a data analysis report for our client which will help them to get reports about</p> <ul style="list-style-type: none"> • Name of pests attacking comb as per season. • Which pest or pathogen attacks more on comb • Improvements that can be made to reduce the pests and pathogens rate using the given predictive analysis. |
| Project Requirements | <p>Obtain the relative data set from the company</p> <ul style="list-style-type: none"> • Data must be in line with python and Power BI • Data must be analysed with Excel and SAS • Data analysis should include the metrics and trends • Results must be visualized through visualization tools such as Tableau with clear and descriptive explanations |
| Project Outcomes or Benefits | The Project's outcomes, their value-added and benefits are as follows: |

| | |
|-----------------------------|--|
| | <ul style="list-style-type: none"> • Enables to take necessary actions in each monitoring site • This analysis report will provide a valuable insight to the client's company about what steps they can take to manage the different kind of viruses • Using this data analysis report as reference, the company can introduce more schemes to reduce the virus affected sites |
| Project Scope | <p>Data analysis on report of Honeybee Pests & Pathogens in Ontario Apiaries.</p> <ol style="list-style-type: none"> I. Data analysis on pests and pathogens of year 2018 and predictive analysis for upcoming year. II. Data visualization of the analysed data. III. Guidance or recommendations to improve the scenario. |
| Project Deliverables | <ul style="list-style-type: none"> • Database to be processed with complete set of data which contains details on different kind of pest and pathogen attacks • Present a data visualization which displays the above points during the tenure 2017 – 2022 • Transfer the knowledge of all research, analysis, visualizations, analysis models, testing, codes, formulas, algorithms, technology, documentation, and work product |
| Constraints/Risks | Potential Challenges Copied from the Proposal |
| Assumptions | <ul style="list-style-type: none"> • Data is reliable, precise, complete, sufficient and consistent to the extent that it is useable for meaningful analysis |
| Key Dependencies | <ul style="list-style-type: none"> • Understanding the functional side of the Project • Receiving and understanding the data • Cleaning and organizing the data • Coming up with a robust Analysis Model |

Part IV: Communications

| Stakeholder | Message | Method | Frequency |
|------------------------|------------------------|---------------------|-----------|
| Sponsor | Client Meetings | In-person, MS Teams | As needed |
| | Risks and Issues | Email, In-person | As needed |
| | Project Status Reports | Email | Weekly |
| | Closing Presentation | In-person | |
| Project Manager | Client Meeting | In-person, MS Teams | As needed |
| | Team Meetings | In-person | In-person |
| | Risks and Issues | In-person, email | As needed |
| | Project Status Reports | Email (creator) | Weekly |
| | Closing Presentation | In-person | |

| | | | |
|---------------------|------------------------|---------------------|-----------|
| Team Members | Client Meeting | In-person, MS Teams | As needed |
| | Team Meetings | In-person | In-person |
| | Risks and Issues | In-person, email | As needed |
| | Project Status Reports | Email (contributor) | Weekly |
| | Closing Presentation | In-person | |

Part V: Project Timeline

| Project Timeline | Activity | Complete By |
|-------------------------|--|--------------------|
| | Client Acceptance of the Project Charter | Nov 30, 2022 |
| | Requirements phase | Dec 2, 2022 |
| | Design phase | Dec 12, 2022 |
| | Development phase | Dec 15, 2022 |
| | Testing phase | Dec 20, 2022 |
| | Release phase | Jan 2, 2022 |
| | Client's presentation | Jan 15, 2022 |
| | Handover of the Deliverables | Jan 20, 2022 |
| | Project Closeout | Jan 30, 2022 |
